****FOR IMMEDIATE RELEASE****

Daniel and RMG Announce Strategic Partnership to bring Ultrasonic Meter Technology to the Energy Industry

****Houston, TX, June 11, 2024**** – Daniel, a global leader in flow measurement and control solutions, is proud to announce a strategic collaboration with RMG, a renowned manufacturer of gas metering technology, to bring to market an innovative, proven ultrasonic flow meter. This partnership marks a significant milestone for both companies as they combine expertise to deliver cutting-edge technology and superior performance for custody transfer applications in the energy industry.

The ultrasonic meters will be branded "Daniel, powered by RMG," and represent the best of both worlds. Daniel's deep knowledge in precision flow measurement and RMG's track record of performance in global measurement applications are seamlessly integrated to create a product that promises enhanced accuracy, reliability, and efficiency.

"Our partnership with RMG on the ultrasonic meters is a testament to Daniel's commitment to innovation and excellence. The inclusion of RMG's ultrasonic line in Daniel's portfolio strengthens our reputation as a trusted provider of a full range of solutions for our customers. By partnering with a company of RMG's caliber, we are confident that this product will set new standards in the industry," said Tony Morris, CEO of Daniel. "This partnership is a strategic move to leverage each other's strengths for the benefit of our customers."

Thorsten Dietz, CEO of RMG, echoed the sentiment: "Working with Daniel has been an exciting journey. Their dedication to quality and customer focus aligns perfectly with our values at RMG. Together, we can offer ultrasonic meter technology that truly embodies the spirit of our collaboration – 'Daniel, powered by RMG'. We are excited about the potential that this partnership unlocks for RMG."

The agreement between Daniel and RMG is focused exclusively on the marketing of the ultrasonic meter GT-400 for certain territories within the Americas region. Both companies will continue to operate independently in other areas of their businesses. For more information about the products, please visit our websites or contact your local representative.

About Daniel:

Daniel is a leading provider of flow measurement control solutions with a long-standing reputation for precision and reliability. Our commitment to innovation and quality has made us a trusted partner in the industry for over 90 years.

About RMG:

RMG is a prominent manufacturer known for its excellence in creating high-quality products. With over 150 years in the natural gas industry, RMG supplies cutting-edge solutions to the major gas transmission companies in Europe and Asia.
